

Target Listening by Country

Harold Sellers, 4205 27th St., Suite 106, Vernon, BC V1T 4Y3
E-mail: dixerharold@gmail.com

Target Listening provides a guide to where, when and how to hear all radio countries operating on the shortwave bands. Reports from our members and other references are used to compile tips that can assist you to log these countries.

Notes:

(1) The purpose of Target Listening is two-fold. One, to give you tips on how to hear the country in question. Second, to help you in your quest to hear as many countries as possible. Some targets are easy to hear, while others may be extremely difficult – and everything in between!

(2) Target Listening includes two sections. The first section is a by-time listing, which lists only time, country and frequencies. The countries listed here may be relay sites or the direct source of the broadcast. [Refer to the by-country listing for that country for complete details.]

The second section is a by-country list giving the best chances to hear the country, according to monitoring reports from club members or from other publications and sources. We give you the best chances to hear broadcasts direct from transmitters in the target country, but we also list relay transmissions if these may be well heard, so those interested in the programs from the country have the best opportunity to hear them.

(3) Relay broadcasters may be found under both the country where the studios are as well as where the relay transmitters are. In the first case, this is so you will know where to look for the transmissions of that country's broadcaster. In the latter case, the intent is to give you an easier (usually!) target to log the country serving as a relay.

(4) See the end of Target Listening for a list of references and contributors to this column (given in brackets throughout).

(5) The country names used in T.L. are taken from the NASWA Radio Country List, which we use in the ODXA. As a result you will find some countries from past history that are now politically part of an-

other country. The Country List is available on the North American Short Wave Association website, <http://www.naswa.net>.

Legend :

Times are in UTC, frequencies in kiloHertz

* sign-on or sign-off time

v variable frequency

<1800> heard before and after time within brackets; 1800> heard from this time; <1800 heard to this time

Abkhazia

Radio St. Helena Day 2009

Radio St. Helena Day 2009 will be on Saturday, 14. November 2009.

The "Party On-The-Air" will have the following schedule.

Time in UTC	Target Area(s)
20:00 – 21:00	India / Southeast Asia
21:00 – 22:00	Japan / Asia
22:00 – 23:30	Europe
23:30 – 01:00	North America / Central America / Caribbean

The transmission will be on 11092.5 KHz in Upper Side Band, as usual.

Radio St. Helena is very pleased to announce that the newly designed RSD 2009 QSL cards will be sponsored by the highly respected Japan Short Wave Club. This good news has been reported by Mr. T. Ohtake of the JSWC. &nbs p; It can truly be said, that without the very generous help of the JSWC, there would not have been a RSD Revival in 2006.

To get a QSL from Radio St. Helena, you must send a written and verifiable reception report by AIRMAIL and include sufficient return postage. Email-reports will be not be verified. Recordings will not be returned. In EURO-countries, please send a 5-Euro banknote. Otherwise, please send 3 or more US dollar banknotes to cover the required return postage.

Radio St. Helena
P.O. Box 93
Jamestown , St. Helena
STHL 1ZZ
South Atlantic Ocean

via AIRMAIL
via United Kingdom & Ascension

The last two lines of the above address are very important and should be written as shown. Be sure to use sufficient postage on your letter to RSH. Ask at your local post office for the correct AIRMAIL postage for your letter to go all the way to St. Helena.

Emails and telephone calls from DXers everywhere are very welcome during the broadcasts. A special email address for RSD 2009 will, probably, be announced in October.

Gary Walters and his Team at RSH wish everyone excellent listening conditions, hope that you enjoy the programming, and hope that the sunspots will be kinder to us this year.

With best 73's,
Robert Kipp
