July 2009

This meagre effort will have to suffice for now as an unexpected hard drive crash had me lose my column and its templates and all loggings submitted up to June 23rd. Hopefully, the computer repair people will be able to resurrect it or, at the very least, retrieve the saved data. Better luck next month, I guess.

Until then, read on and enjoy and send some of your own loggings in.

0100 – 0200

9890 Russia Voice of Russia, at 0147 with "Kalaidoscope" then ID with email and URL. IS and news at 0200. (Very Good May 26 GS)
